## About the QRM Center

The Center for Quick Response Manufacturing was established in 1993 at the University of Wisconsin-Madison as a forum to develop the theory and practice of QRM and to help the transition from the theoretical to the practical. The public-private partnership between industry professionals, UW-Madison faculty and students strengthens industry competitiveness and drives further development of QRM principles and methods.

Over 200 companies from different industry sectors have applied QRM. Currently, the QRM Center consists of about 50 companies.
