

**ECE 600 Seminar**  
**February 14, 2011, 3:45 – 4:45PM, EH 1800**

Title: ***ECE Library Resources to Save You Time and Money***

Jody Hoesly and Amy Kindschi, Wendt Library, UW-Madison

**Abstract:**

With proliferating information sources, locating relevant information to support your research can be time consuming and often require an access fee. In this lecture, we will provide tips to:

- maximize the use of core ECE resources,
- access what you need for free,
- create your own personal library, and
- share your research legally.

**Biography:**

Jody Hoesly is the Collections and Scholarly Communications Librarian at the University of Wisconsin - Madison's Wendt Library. Jody has a B.S. in Mechanical Engineering and worked as an engineer in the machine tool, recreational vehicle, and electrical contracting industries. In 2008, she graduated from the University of Wisconsin - Madison with an M.A. in Library and Information Studies. She is also a certified K-12 teacher-librarian, technology teacher, and Project Lead the Way (PLTW) instructor. Jody joined Wendt Commons in April 2009 where she manages the collection budget and serves as a reference, instruction, and liaison librarian.

Amy Kindschi received her Masters in Library Science at UW-Madison. As Head of Faculty and Student Services at UW-Madison Wendt Commons, she is responsible for reference and other library services. She is library liaison to 4 campus Departments (Mechanical Engineering, Engineering Physics, Industrial and Systems Engineering, and Statistics). She teaches working engineers how to find information in the MEPP distance program (Master of Engineering in Professional Practice). She is also the director of the College of Engineering Teaching Assistants' "Teaching Improvement Program".
