# ASME TIMES

---

UNIVERSITY OF WISCONSIN - MADISON

SPRING 1995

---

Welcome back everyone! Hope you're refreshed after that balmy Winter Break because ASME is raring to go! But first a word to the uninitiated.

ASME encourages and welcomes new people to the society. With the addition of each incoming member ASME increases its ability to serve you. More people in the society equals more activities, events and PIZZA! The purpose behind these activities which include plant trips, faculty and industry speeches, and conferences is to educate you and develop lifetime business and social relationships. With our dedication to the success and personal development of you and every other member we offer to show you what it really means to be an engineer.

## Officers

Below each position is the officer's phone number and email address. Feel free to contact them to answer any questions pertaining to ASME.

## Committee Members

We need people to help us organize events, activities, meetings, etc. and make them happen. If you feel the urge to get involved, here's your chance! Come to the Kickoff Meeting to hear about what's available and sign up for a position.

## Kickoff Meeting

Besides describing the various committee positions, we will expand on the **Schedule of Events** and entertain any questions people might have about ASME. And yes, there will be PIZZA! So bring an appetite and a friend. Hope to see you there!!!
