

Miller Park/Waste Management Site Visit

Mr. Robert Kieckhefer with Price Erecting has teamed up with Waste Management and Miller Park to bring us an amazing site visit; it will be an awesome experience! The site visit is set for Wednesday, April 23rd. The day will start out at 12:00pm; we will all meet at engineering hall, in front of the fountain. We will be arriving at Price Erecting's office at 2:00pm; there we will be looking at trucks, cranes, hydraulic gantries, and special rigging equipment. Next we will be traveling to Germantown to tour Waste Management's state of the art recycling plant. There they have an operational video and a scaled model of the plant. At 4:30pm we will travel to Miller Park for a tour at 5:00pm. We will take elevators up to the highest fan seating area and from there walk up about 140 steps up to the bogey/track level. We will get to see the track and guide system that is in place for the roof leaves to move along the track. Following the tour we will take in the Brewers vs. Rockies baseball game starting at 7:05pm, compliments of Price Erecting. Transportation will be provided by the Construction Club.

Schedule:

12:00 pm	Meet at Engineering Hall in front of the water fountains.
12:15 pm	Leave Engineering Hall.
2:00 pm	Arrive at Price Erecting and tour there facilities.
3:00 pm	Arrive at Waste Management in Germantown.
5:00 pm	Tour Miller Park's roof system.
7:05 pm	Watch Brewers vs. Rockies Game
10:00 pm	Approximate time of departure.
