

FIND YOUR FIT: ALTERNATE ENGINEERING MAJORS

Core GPA (or anticipated Core GPA): _____

See progression.engr.wisc.edu for GPA benchmarks

Alternate Engineering Majors: _____

Reflect on how you originally selected your engineering major

- *How did you choose?*
- *What about it did you find interesting?*

Review the curriculum and DARS for available alternate majors

- *What courses sound interesting to you? Which less so?*
- *Could your interests fit into the tracks or electives within a major?*

Research career outcomes and placements for alternate majors

- *Could you reach your career goals through one of the engineering majors available to you?*
- *Did you find any new opportunities you hadn't previously considered?*

Remember, your education is about more than your major

- *What 'out of classroom' experiences are important to you?*
Example: internships/coops, student orgs, volunteering, study abroad
