Core GPA FAQs

What is Core GPA?
Your core GPA is comprised of select math, science and engineering courses that meet specific requirements defined at:
http://UGregulations.engr.wisc.edu (Regulation 3.F.).

How do I know which courses count toward my Core GPA?
Your DARS lists completed and in-progress courses that comprise your Core GPA. Core GPA is listed on your DARS.

What happens if I repeat a course?
For one and only one of these core courses that a student has repeated, the more recent of the two grades will be used in the calculation of Core and Overall GPAs. Both grades will stay on your UW-Madison record and cumulative GPA.
