### Course Substitution Regulations

#### CBE Course Substitution Regulations

1. Any student may, with adviser approval, replace up to 12 credits of required courses in the curriculum (except CBE 424) by an equal number of credits of other courses within the limitations listed under (2).
2. Restrictions on course substitutions are the following:
  - a. Physics courses may be replaced by science or engineering courses;
  - b. Chemistry/life science courses must be replaced by courses with significant chemistry/life science content;
  - c. Engineering courses must be replaced by engineering courses;
  - d. Lab courses must be replaced by an equal number of hours of lab courses;
  - e. English 101, English as a second language courses, and Math 112-114 may not be used for course substitutions.
3. A student who wishes to make a course substitution must obtain a **Course Substitution Form** from room 3035 (also available online). The form must be signed by the student's adviser and turned into the Undergraduate Office, Room 3035, for entry into the student's record.
4. Course substitution requests must be submitted before the beginning of the semester in which the course will be taken, **and** course substitution requests must be submitted at least two semesters prior to graduation in order to allow sufficient time for departmental review of the request without delaying the student's graduation.
