Minimum Degree Credits Required = 128 (see note C)

The letters appearing at the lower left refer to notes on the following page.

The prerequisites for each class are listed in the course catalog.
A. CHEMISTRY: There are two options for the chemistry elective:
   Option 1—Chem 103, 4 credits and Chem 104, 5 credits
   Option 2—Chem 109, 5 credits. Note: If Chem 109 is taken, students may need free elective credits to meet the minimum number of credits (128) required for graduation. (See note C)

B. INTRODUCTION TO ENGINEERING: InterEgr 101 or InterEgr 102 (2 credits) or InterEgr 160 (3 credits) all satisfy the college requirement for introduction to engineering.

C. 128 CREDITS TOTAL REQUIRED: Students fulfilling their course requirements with fewer than 128 credits must take additional free-elective credits to comply with the 128 credit minimum graduation requirement.

D. LIBERAL STUDIES REQUIREMENTS: Students must take 15 credits that carry H, S, L, or Z timetable breadth designators. These credits must fulfill the following subrequirements:
   1. A minimum of 2 courses from the same department or program. At least 1 of these 2 courses must be designated as above the elementary level (I, A, or D) in the timetable.
   2. A minimum of 6 credits designated as humanities (H, L, or Z) in the timetable, and an additional minimum of 3 credits designated as social studies (S or Z) in the timetable. Foreign Language courses count as H credits. Retroactive credits for language courses may not be used to meet the Liberal Studies requirement.
   3. At least 3 credits in courses designated as ethnic studies (lower case "e") in the timetable. These courses may help satisfy requirements D1 and D2 as well, but they only count once toward the total required. Note: Some courses may have "e" designation but not have H, S, L, or Z designation; these courses do not count towards the liberal studies requirement.

E. TECHNICAL ELECTIVES
   The Mechanical Engineering curriculum requires a total of 12 credits of technical electives. A minimum of 9 of the 12 credits must be from formal courses. (A formal course is defined as a class which meets regularly in a lecture format to study a selected topic. The educational mission is assisted with homework and exams. Formal courses cannot be seminar, survey, or other similar courses.)
   1. Formal ME. A minimum of 6 (of the required 9) formal course credits must be for Mechanical Engineering courses with course numbers 400 or higher or for ME 351. (See note H).
   2. Non-ME Formal. Up to 6 technical elective credits may be earned for formal classes in courses outside of the Mechanical Engineering Department. These courses may be engineering, mathematics, physics, chemistry, statistics, biology, or computer science courses numbered 400 and above. InterEgr and EPD course selections are limited to those listed below. The courses listed below are also accepted as technical electives. Other courses may be accepted if approved by the Curriculum Committee in advance of taking the course:
      Comp Sci 354, 367
      Chemistry 341, 343, 345
      Math 321, 322
      Physics 311, 321, 322, 325
      Statistics 311, 312, 333, 349, 351
      InterEgr 301
      BSE 351, 364
      CEE 311, 315, 316, 320, 325, 330, 355,
      356, 370, 375
      CBE 320, 326
      ECE 320, 330, 340, 342, 352, 353,
      354, 355
   3. Non-formal. Up to 3 technical elective credits may be obtained for non-formal Mechanical Engineering courses such as on-line and independent study courses (e.g., ME 491, 492). Up to 1 credit of Cooperative Education (ME 001) can be counted for technical elective credit. Up to 3 credits is allowed for EPD 690 Wisconsin Engineer Magazine. Up to 1 credit of ME 273 Engineering Problem Solving with EES is allowed.

F. COMMUNICATION REQUIREMENT: EPD155 fulfills the Comm A requirement. If your GER communications Part A is satisfied you are exempt from this requirement. This requirement can also be fulfilled with: Ag Journ 100, Com Arts 100, Engl 100, Engl 118, or IES 200. (See note C)

G. ME 306 and ME 307. ME 306 must be taken before or concurrently with ME 307.

H. CAPSTONE: There are two options for the capstone design experience: ME 349 taken alone or ME 351 and ME 352 taken sequentially. Students completing ME 352 will satisfy the requirement for ME 349 and will receive 3 technical elective credits for ME 351.

I. ME 240, ME 306, and ME 361 each require a minimum grade of C

J. MATH/SCIENCE ELECTIVE: The Mechanical Engineering curriculum requires 3 credits of Math/Science electives. Any formal biological science course numbered 100 and higher will also satisfy this elective. Any formal course that is listed in Engineering or as either physical or natural science in the breadth designation and is numbered 200 or higher will satisfy this elective. EPD and InterEgr courses will not satisfy the Math/Science elective.

SPECIAL NOTES
- Students in their last semester before graduation taking less than 12 credits (part-time status) must have the Dean's permission.
- Questions concerning this curriculum should be directed to: Student Services Staff, Rm. 3182 ME, or your Advisor.
- Mechanical Engineering's website is found at: http://www.engr.wisc.edu/me/
