The University of Wisconsin-Madison announces new faculty positions in the GRAINGER INSTITUTE FOR ENGINEERING

The College of Engineering at the University of Wisconsin-Madison invites applications for one tenured position and up to eight tenure-track faculty positions in the broad areas of Energy and Sustainability and Accelerated Materials Discovery. The faculty members will be appointed as Grainger Institute Fellows within the newly launched Grainger Institute for Engineering and will have appointments in one or more academic departments within the College of Engineering.

The Grainger Institute for Engineering serves as a new research incubator within the College of Engineering. The Institute fosters a vibrant transdisciplinary research and educational environment for addressing grand technological challenges. New research directions will be launched and nurtured within the Institute, with targeted efforts in the areas of energy and sustainability, and accelerated materials discovery.

Successful candidates will be expected to maintain a world-class, extramurally-funded graduate research program on technological problems that are relevant to the needs of the profession and of society. They will also contribute to the education and professional development of undergraduate and graduate students, and engage in department, college, university, community, and professional service activities as appropriate.

ANTICIPATED START DATE IS MARCH 2017.
