

CORE GPA CALCULATION WORKSHEET

Intended Engineering Major: _____ Core GPA Benchmark: _____

Core GPA FAQs

What is Core GPA?

Your core GPA is comprised of select math, science and engineering courses that meet specific requirements defined at: <http://UGregulations.engr.wisc.edu> (Regulation 3.F.).

How do I know which courses count toward my Core GPA?

Your DARS lists completed and in-progress courses that comprise your Core GPA. Core GPA is listed on your DARS.

What happens if I repeat a course?

For one and only one of these core courses that a student has repeated, the more recent of the two grades will be used in the calculation of Core and Overall GPAs. Both grades will stay on your UW-Madison record and cumulative GPA.

Completed Core Course	Earned Grades	Earned Credits	Grade Multiplier <i>(See Table)</i>	Earned Grade Points <i>(Credits X Grade Multiplier)</i>
Total Earned Credits :			Total Earned Grade Points:	

Current Core GPA:

Grade Multiplier Table						
A	AB	B	BC	C	D	F
4.0	3.5	3.0	2.5	2.0	1.0	0.0

$$\frac{\text{Total Earned Grade Points}}{\text{Total Earned Credits}} = \text{Current Core GPA}$$

In-Progress Core Courses	Projected Grades	Projected Credits	Grade Multiplier <i>(See Table)</i>	Projected Grade Points <i>(Credits X Grade Multiplier)</i>
Total Projected Credits :			Total Projected Grade Points:	

Projected Core GPA:

$$\frac{(\text{Total Earned Grade Points} + \text{Total Projected Grade Points})}{(\text{Total Earned Credits} + \text{Total Projected Credits})} = \text{Projected Core GPA}$$
